Asansol Engineering College

Entrepreneurship Development Cell

Even the greatest minds need a little push. The greatest of businessman (woman) started with help of someone who pushed them to their limits and became their stairway to success. We at ED Cell, Asansol Engineering College, want to do just that. With a mission of bringing like-minded groups of people together and put those ideas or opinions into action & thereby creating a start-up culture. We believe that ideas are more than enough to be a great entrepreneur. Just with some exposure they can be the best of the best. From the inauguration on 24th March, 2015 we are adding stars on our shoulders, touching new heights every day. It is said, hard work bears the tastiest fruits. If we go further the ED Cell was the reason of many successful start-ups like the WEBINGO, RADOBIZ , WITYLITI etc.

Vision

"To Create a Centre of Excellence for entrepreneurship development based on quality learning, skill development and producing successful entrepreneurs with leadership qualities by translating innovative ideas into viable enterprises"

Mission

1. To be an acknowledged unit by prospective entrepreneurs
2. Competent authorities and committed to entrepreneurship education, training and research through competition, self motivated and self-driven practices.
3. To promote employment opportunities.

Objective

1. To create awareness on entrepreneurship among the students.
2. Promote employment opportunities.
3. Develop management personnel at appropriate levels for non-corporate and unorganized sectors like education, rural development, small-scale industry etc.

Core committee of ED Cell

Serial No	Student Name	Designation & Dept	Post
1.	Mr. SOUMEN SEN	Asst. Prof, ECE Dept	Coordinator
